MESSAGE

It is a matter of pleasure to know that Anand International College of Engineering, Kanota, Jaipur is organizing the "24th International Conference on Finite or Infinite Dimensional Complex Analysis and Applications" from August 22-26, 2016 and also publishing a Souvenir on the occasion. It is indeed a marked achievement for Anand International College of Engineering to be hosting such a prestigious international event, which is also being organised in India for the first time. This is a matter of pride not only for the College but also for the host city Jaipur, Rajasthan.

I am sure that the Conference will act as a unique opportunity to bring together leading Researchers, Mathematicians, Engineers, Scientists and Students from all over the world, working in the areas related to the Conference and also provide a distinctive platform for fruitful deliberations and exchange of ideas.

I believe that young researchers attending the Conference will benefit immensely from these scholarly deliberations and feel inspired to achieve new heights in Research in all spheres associated with the Conference

I send my good wishes and blessings for the grand success of the Conference.

(KALICHARAN SARAF)
